

We are pleased to say that all resident vaccination clinics have now taken place.

While the news about vaccines is positive, we continue to implement our strong infection, prevention and control measures at our sites and follow all health orders as mandated by the province. Our employees and designated support/family persons (DFSPs) will continue to follow strict safety protocols until further notice.

We want to reiterate our thanks for all your support and patience over the past 12 months. It's hard to imagine all of the sacrifices you have made during this period, and we continue to be grateful for your messages and well wishes.

Total # recovered:	0
Total # active cases:	1 Student

- 1 / Level 2 North Lakeshore

Current units in declared outbreak and those recently lifted:

Bethany Riverview is currently in outbreak.

*The Medical Officer of Health (MOH) has confirmed a COVID-19 variant of concern (VOC) at Bethany Riverview. Due to the potential increased transmissibility, stricter protocol is necessary as soon as a COVID-19 VOC outbreak is confirmed.

It is essential to maintain continuous eye protection and continuous safe mask usage, other PPE and physical distancing. Your safety, as well as the safety and wellbeing of your family and our residents, remains our top priority.

Access to DFSP visitors may be temporarily restricted to prevent the spread of VOC. Once we receive guidance from the MOH we will be able to provide further direction.

Our Outbreak Process

We have implemented a series of outbreak processes and protocols to help keep people safe. Please read our [statement](#) online for a summary of the steps we are taking.

Here's a brief overview:

- If any resident displays symptoms, they will receive immediate attention, a swab will be taken and the resident's family will be notified.
- Employees with confirmed cases of COVID-19 are self-isolating at home, at the direction of Alberta Health Services (AHS) and the Medical Officer of Health. They will not return to work until cleared by Public Health.
- Employees identified by the Medical Officer of Health who have been in close contact with a confirmed individual are at home, self-isolating as a standard precaution. They will not return to work until cleared by Public Health.

For good news stories happening at Bethany, please go to our social media channels:

We strongly advise DFSPs to limit their presence on site whenever possible. Minimizing the number of individuals entering our sites each day helps reduce the risk of further spread of the virus. Although DFSPs help maintain resident mental and physical health, and wellbeing, we recommend other ways to stay connected with your loved one (such as phone calls or virtual visits), without coming to the site.

Although we will do our very best to accommodate virtual visits, we are limited to the numbers we can conduct on units that are not on outbreak. We appreciate your patience, and we ask that DFSPs assist their family members with virtual visits. In the meantime, please continue to abide by our current visitor restrictions at Bethany Riverview. Thank you for your understanding and the sacrifices you are making in light of our public health measures.

Please reach out to the Site Administrator with any questions or concerns you may have:

Site Administrator: Jody Erickson
Email: Jody.Erickson@Bethanyseniors.com

**To protect the health and safety of ALL our residents and employees, please notify Bethany Riverview who the DSFP visitors are prior to coming on site and if they have tested positive for COVID-19. If a DSFP visitor has tested positive for COVID-19 they will not be allowed to enter.*
